RoseCase ErgoLine

Combination – a Well Thought-Out Concept!

The elegant RoseCase ErgoLine is made of plastic materials with enclosed hinges and legs which are integrated into the suitcase structure. The cases are available with various interior designs, thus optimally adaptable to all product-related and market-specific requirements. Thermoformed trays or foam inserts provide protection for the content. The top and bottom of the case is available in various depths and can be combined with solid colours and/or colour combinations. Company-specific printing or labeling, smooth or textured surfaces, or the optional “soft-touch handle” mean maximum recognition value. Ergo: It is the combination that does it all!
